DETAILED ACTION

Drawings

1. Figures 4-7 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. (see Specification) See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the specification:

In page 1, line 1, of the specification, add "This application is a continuation of provisional application 60/520,977 filed 11/18/2003.

In the Drawings:

In Figures 1-2, the label "State of the Art" has been replaced by "Prior Art";

Figures 4-7" have been labeled "Prior Art".

Allowable Subject Matter

3. The following is an examiner's statement of reasons for allowance: The prior art of record does not teach a loop filter for a sigma delta analog to digital converter that includes an active analog filter; the analog filter includes a number of active devices for providing a power gain in which the order (Nth) of the active analog filter is greater than the number of active devices.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Peguy JeanPierre whose telephone number is (571) 272-1803. The examiner fax phone number is (571) 273-1803.
